

SENIOR MECHANICAL ENGINEER/PROJECT MANAGER

(NETWORKING AND BUSINESS DEVELOPMENT SKILLS A PLUS)

Allied Engineering specializes in the design of high-performing, complex spaces for clients throughout New England and across market sectors. We are committed to strong teaming and collaboration with our clients and colleagues. Our staff are given endless opportunities to hone their expertise and advance their careers.

Allied Engineering has an immediate opening for a full-time Mechanical Engineer/Project Manager in Portland, Maine.

Responsibilities:

- Minimum of 4-7 years of mechanical design of HVAC and plumbing systems.
- State of Maine P.E.
- Responsibilities will include site investigation, code review, calculations, energy modeling, preparation of construction documents, and start-up/functional testing oversight and documentation for equipment and systems.
- Knowledge of national, state and local codes as they pertain to HVAC and plumbing.
- Ability to lead the mechanical aspects of multiple projects simultaneously
- Strong communication skills, both written and spoken.
- Ability to work on a team with opportunities for growth into management.
- Strong business development and networking skills, always seeking new work from repeat clients or new clients.

Requirements:

- FE or EIT certification preferred
- PE preferred
- Bachelor's Degree in Mechanical Engineering required.

Required Technical Knowledge:

- Experience in Revit and AutoCad
- Working knowledge of HVAC Design software such as Trane Trace
- Working knowledge of Microsoft Office

Allied Engineering rewards hard work and creativity with a competitive compensation package that includes:

- Paid time off (vacation, sick, community service)
- Healthcare, dental and life insurance benefits
- 401(k) retirement savings plan with automatic company contribution
- Education assistance
- Flexible work environment
