

STRUCTURAL ENGINEER

Allied Engineering, Inc. has an immediate opening for a Structural Engineer (PE) with 8+ years of experience. We are a 100% Employee Owned, multi-disciplined (MEPS) engineering firm located in Portland, Maine.

Some of our current projects include: K-12/higher education facilities, medical office buildings, assisted living facilities, mixed use multi-story residential complexes, municipal maintenance facilities, and hotels. Our projects utilize a combination of a variety of building construction materials (steel, concrete, masonry, wood, CFM, precast, AAC and ICF elements)

We offer a robust list of employee benefits. In addition to annual company stock distributions to each employee, we offer health, dental, vision, and life insurance- as well as a 401K with employer contributions.
